I showed this material to a select group of beta-testers (*who spent weeks going through every book in this collection*) and they told me that the **absolute LEAST** I should charge for this material is **\$295..**

But because you're a "TedsWoodworking" customer, and because I want to help you master woodworking and make the most out of my plans, ***I'm NOT going to charge you anywhere near that.***

Nope, **if you act right now**, you can add "Ultimate Woodworking Compendium" to your order...

Not for \$295...

Not for \$195...

Nope, you can get the full collection for just \$39.95...

But You Must ACT Right Now

If you leave this page, you'll lose your chance. I may release "Ultimate Woodworking Compendium" to the public as a standalone product in the future (*at a much higher price*), but right now, **the only place you can get this material is right here.**
